By purchasing a share in our CSA (Community Supported Agriculture)

We form a relationship with you and you get to know the people who

grow your food, thereby continuing a farmer to customer tradition that began years ago. Becoming a share holder makes a statement for supporting local family farms that grow the highest quality food.

Your support is also a financial commitment. It enables us to prepare for the needs of the farm so that we can all enjoy the bounty for years to come.

(A typical mid summer share filled with celery, eggplant, heirloom tomatoes, carrots, thyme, swiss chard, garlic and green cabbage.)

At Tempel Farms Organics

Farm managers, Chris and Tania Cubberly grow a diverse variety of crops. We follow strict guidelines for growing organically and will certify our land in the near future.

A selection of crops we grow:

Arugula, Beets, Broccoli, Brussels Sprout, Cabbage, Carrots, Cauliflower, Collards, Cucumbers, Eggplant, Green Beans, Herbs, Hot Peppers, Kale, Kohlrabi, Lettuce, Onions, Parsnips, Potatoes, Radishes, Rutabaga, Salad Mix, Spinach, Summer Squash, Sweet Peppers, Sweet Corn, Swiss Chard, Turnips, Wax Beans, Winter Squash and more!

We strive to provide a generous supply of incredibly fresh, seasonal vegetables each week, but since nature has no guarantees we cannot offer any either. You will be experiencing the ebb and flow of vegetable farming. If a crop is plentiful and doing well you will receive plenty. If a crop is not so abundant there will be less of it in your share.

Each week you will receive an email newsletter that will give insight as to what happened on the farm that week, what produce to expect in your box, a few pictures and plenty of recipes.

We want you to be proud of our farm and proud of the food you serve at your table. If you have any questions regarding the farm or the food, please send us an email so we can get back to you after the day's work. Cell phones are often convenient but not when harvesting potatoes.
